PROFILE SUMMARY

- Working as a full stack **JavaScript (MERN) developer** in the software industry with an overall 3.7 years of experience.
- Strong problem-solving skills and proficiency in **React.js and Node.js**.
- Sound knowledge of **Data structures and algorithms, Object-oriented programming**, and responsive UI UX design.
- Looking for an opportunity to showcase my skills to enhance my knowledge as well as contribute to my organization to the best of my potential.

WORK EXPERIENCE

Software Development Engineer Brillio Technologies Pvt Ltd

Aug 2021 – Present

- **Develop Web App:** Worked as a full stack developer for a web application that helps the client (Universal Music Group) to create, update and maintain new as well as existing Shopify stores.
- **Develop UI Components:** Developed reusable UI components using **React.js** with its inbuilt features like Functional components, Hooks, and State management. Built a reusable complex form using **Formik** and used **Yup** for data validation.
- **Handle Complex State on React:** Used **Redux Toolkit** and **Context API** to handle complex states on the client side of the web app.
- **Focus on Performance and Reusability:** Followed patterns like render props, higher-order components, compound components, and custom hooks to increase performance and create reusable modular components.
- **Implement REST APIs:** Developed and implemented **CRUD operations using REST APIs** to interact with Shopify API endpoints and its ecosystem using **Node.js**.
- **Work on AWS:** Implemented both Read and Write APIs with **AWS S3** to create and maintain the application logs.
- **Debug and Test:** Debugged the web app using browser dev tools, React dev tools, and Redux dev tools. Used **Jest** and **React testing** library for unit testing on functional components.

System Engineer Infosys Limited

Jan 2020 – July 2021

- **Develop User Interface:** Worked as a front-end developer on an internal project. Built, developed, and tested UI components with **React.js** and various **React-supported libraries**.
- **Develop Landing Page and Routing:** Developed the landing page of the application with **Tailwind CSS** and worked on the routing and navigation of the application using **React Router**.
- **Follow The Agile Method:** Worked closely and co-operatively with co-developers and project managers in a deadline-driven environment, following the agile method and its best practices.

SKILL

- | | |
|----------------|-------------------------|
| • JavaScript | • Node.js |
| • React.js | • Express |
| • Redux | • Jest |
| • HTML5 | • React testing library |
| • CSS | • MongoDB |
| • Tailwind CSS | • AWS (S3 service) |
| • Webpack | • Git |

PERSONAL PROJECT

- WeChat Web app: Developed a real-time chat application using React.js, Socket.io, Node.js, Tailwind CSS
 - URL LINK: <https://wechat-k381.onrender.com/> GitHub: <https://github.com/Ajit99999/wechatapplication>
- Ecommerce-Kart Web app: Developed an e-commerce application using React.js, HTML, CSS, Firebase
 - URL LINK: <https://ecommerceapp-163ee.web.app/> GitHub: <https://github.com/Ajit99999/EcommerceWebApp>

EDUCATION

- Indira Gandhi Institute of Technology (Bachelor of Technology)

2015-2019
