PROFILE SUMMARY

- Working as a full stack **JavaScript (MERN)** developer in the software industry with an overall 5 years of experience.
- Strong problem-solving skills, proficiency in **React.js** and **Node.js**, and a solid foundation in **Data structures** and **algorithms**, responsive UI/UX design, and **Object-oriented programming**.
- Seeking an opportunity to apply my skills, deepen my knowledge, and fully make a meaningful contribution to the organisation of my abilities.

WORK EXPERIENCE

Software Development Engineer 2

Hinge Health, India

Sept 2023 - Present

- **Developed and integrated UI components** of a scheduling app built on **React** integrated with Healthie, enabling users to book appointments with PTs and coaches within the app. This feature facilitated seamless appointment management, enhancing user support and accessibility.
- Utilized **Context API** for state management, integrated Mix panel for analytics, implemented **react-i18next** for localization, and set up **Auth0** for authentication, achieving an overall test coverage of 90%
- **Developed APIs** using **NestJS** and **Ruby on Rails** to deliver in-app educational content covering goals and habits, pelvic health, and community stories. Contributed to the app's global expansion by implementing localization and location-based content delivery, ensuring content relevance and enhancing user engagement.
- As the primary contributor, integrated **Redis** for data caching, **Mux** for video content within articles, and **Contentful webhooks** to automate content workflows, ensuring seamless database operations when articles are published.

Software Development Engineer 2

Brillio Technologies, India

Aug 2021 - Sept 2023

- **As a full-stack developer**, contributed to a web application for a Universal Music Group client, enabling the creation and maintenance of Shopify stores.
- **Designed and implemented reusable UI components** using **React**, leveraging Functional components, Custom Hooks, and **Formik** for complex form handling, while managing application state with **Redux** and **Context API**.
- **Developed RESTful APIs** with Express for CRUD operations, integrated **AWS S3** for logging, and maintained application reliability through comprehensive unit and e2e testing with **Jest**.

System Engineer

Infosys Limited

Jan 2020 – July 2021

- **Built and Optimized UI components** using **React** and various React-supported libraries and developed the landing page with **Tailwind CSS** while implementing routing and navigation with **React Router**.
- Collaborated closely with co-developers and project managers in a deadline-driven environment, following agile methodologies and best practices.

TECHNICAL SKILLS

- **Languages:** JavaScript, Typescript, Ruby, HTML, CSS
- **Libraries, Frameworks and Tools:** React, Node.js, NestJS, Express, PostgreSQL, AWS, Docker, Kubernetes, Redux, Jest, React Testing, Git

PERSONAL PROJECTS

- **WeChat Web app:** Developed a real-time chat application using React.js, Socket.io, Node.js, and Tailwind CSS. [Git-Hub Live-Link](#)
- **E-commerce-Kart Web app:** Developed an e-commerce application using React.js, HTML, CSS, and Firebase. [Git-Hub Live-Link](#)

AWARDS

- Manager spot award

EDUCATION

- Bachelor of Technology, Indira Gandhi Institute of Technology

2015 – 2019
